Innovative Baby Sock Shoes

ABOUT KOMUELLO

Komuello is the most innovative baby shoes brand. The first step to provide perfect shoes for babies. The sole is made of the eco-friendly TPE (Thermoplastic Elastomers), the same material used in baby teething toys, without any adhesive chemicals. The raw material of TPE approved by FDA and has a patent; "Double Injection Technology". The only brand with this patent, sole and TPE shoes in the world. Komuello is loved by moms around the world for its safety, convenience and fashionable designs at an affordable price.

SELLING POINTS

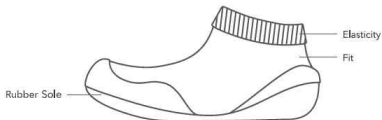

Easy to Wear

Komuello shoes are extremely light weight (approx. 28g), easy to wear, making it the comfortable shoes for babies.

Elasticity

High elasticity Lycra socks provide maximum ankle comfort.

Improved Breathability

Komuello's patented unique AIR POCKET (by Double-Injection technology) between the sock layer and sole provides extra cushion. Also it helps the sweat evaporate better.

Nonslip Outsole

The honeycomb patterned outsole, made of FDA approved non-toxic TPE (Thermoplastic Elastomers), prevents slipping, making it suitable for indoor and outdoor play.
